After successful prototype development: SMAG Mobile Antenna Masts GmbH signs a contract about series production with ERA s.a. from Czech Republic

Fast, Strong and Reliable - New container mast system in series production

After successful cooperative development, manufacture and supply of the prototype of the new Mobile Antenna Mast System Ftm 25/6 Medium, the leading German manufacturer of mobile antenna masts and the Czech developer and supplier of passive radar systems ERA a.s. signed a contract about delivery of eight container mast systems in series production today (31.05.2017) at the IDET exhibition in Brno (CZ). The outlook is positive - there is a great demand for the innovative containerized systems. New further projects are already in progress and both companies are expecting repeat orders.

The well experienced manufacturer with expert knowledge connected their products in an optimal way. The unique passive reconnaissance and surveillance system VERA NG by ERA and the reliable Mobile Antenna Mast System Ftm 25/6 Medium compose a highly efficient system unit which is integrated into a standard 20'-container and ideally supplements the wide range of SMAG Mobile Antenna Masts.

Salzgitter, May 2017

About SMAG Mobile Antenna Masts GmbH

SMAG Mobile Antenna Masts GmbH (SMAM) a subsidiary of Salzgitter Maschinenbau AG, is the unique manufacturer for Mobile Antenna Masts worldwide up to a height of 40 m without using any kind of guy wires. The Mobile Antenna Masts are globally used for disaster and military operation, for mobile communication, radio and broadcasting transmissions. The mast systems are tailor made and can be mounted e.g. on trailers, trucks, containers, armored vehicles and platforms.

About ERA

ERA a.s. (a member of Omnipol Group) is a pioneer and leading supplier of next-generation surveillance and flight tracking solutions for the air traffic management, military, security and airport operations markets. As one of the developers of the respected technologies of multilateration and ADS-B and thanks to the company's traditional products ERA has 100 installations at a series of aerodromes, air traffic control centres and military organisations in 60 countries on all continents except Antarctica. For more than half a century ERA has built a proud heritage delivering multilateration based solutions such as wide area multilateration and surface surveillance to ATC controllers. Apart from systems for the civil sector, ERA has developed the unique passive radiolocation system VERA-NG - an essential part of any modern defence surveillance network and advanced border protection.
