COVID-19-situation

Dear Sir or Madam,

It has been 47 days since the WHO declared the coronavirus a pandemic. 47 days in which a lot has changed for all of us - time for a short summary of our situation:

Due to extensive measures at our location in Salzgitter, both at SMAG Mobile Antenna Masts GmbH and at our interconnection companies PSLT and Salzgitter Maschinenbau AG, no significant COVID 19 cases occurred among our employees.

The following measures have been taken by our companies:

- Establishment of rules of conduct and hygiene;
- Suspension of travel activities by employees;
- Increased use of video-conferencing for business communication;
- Limit of visits to the site to deliveries of goods by external suppliers;
- Time-relevant and territorial rectification of the work situation;
- Expansion of mobile work

All of this has effected that the spread of the COVID-19 virus has been avoided at our site till this date.

However our company is dependent on global supply chains with its products. Due to this interlocking, there were unfortunately delays in deliveries or required services by external partners, which means extreme challenges for our everyday production process and our company. We accept these challenges positively and are constantly working together with our suppliers and service providers to ensure a smooth process and deliveries in due time for our customers. Unfortunately, this is not always possible in full, so we ask for your understanding if there are delays in our cooperation and the delivery of our components and systems. Please be assured that SMAG will take every opportunity to avoid such delays.

We would like to thank you for your confidence and look forward to a continued successful cooperation with you.

If you have any questions, please contact us at any time. Together, we will try to find the best possible solution for you.

We wish you and your families, your friends and your team all the best and that you remain healthy.

Sincerely yours,

SMAG Mobile Antenna Masts GmbH
